

In the beginning, God created the heavens and the earth. Genesis 1:1

The heavens declare the glory of God;
the skies proclaim the work of his hands. Psalm 19:1 (NIV)

This is the song that takes on the debate: God's Creation Vs. Darwin's Theory of Evolution and Natural Selection of Species... in a light, but still serious way.

It is a very controversial debate, which I have strong feelings about. And considering my Christian faith, it should be easy to determine which school of thought I side with. Not being a respected authority in theology or science, I must use the evidence that is available to all of us who have been so blessed as to occupy a place in God's grand design: the miracle of life; the beauty of nature and our world; the orderliness of our universe; the human heart and its capacity for love; and the human brain that is able to contemplate all of these things.

Coincidence

by Jeffrey Robert Smith

VERSE 1: If you take it from the top.....
You were born into a planet that had air for you to breathe.
You gave so little for so much that you received.
What have you learned from this?

VERSE 2: With a Sun to warm your face,
And a Moon to warm your passions as you stare out into space;
You have to know it wasn't luck that built this place.
It was the Hand of God.

REFRAIN: Evolution.....Coincidence.....
You're not so sure, so you're just sittin' on the fence.

CHORUS: It's the miracle of life,
And a wond'rous life it is.
How could you ever think it's anything but this?
Now He gave to you a mind,
So that you could make the call;
It's no coincidence that you can think at all.

VERSE 3: Still, you're tryin' to make a case...
That we crawled out of the oceans with some flippers for our feet.
If you believe that, I've got fish for you to meet;
There might be someone you know.

VERSE 4: Or if monkeys are your thing...
You're out on a limb on the fam'ly tree from which you swing.
Somebody dig up an ancient ape that wears a ring,
And watch how the theories grow!

REFRAIN: Evolution.....Coincidence.....
Bury the bones, and you might start to make some sense.

CHORUS: It's the miracle of life,
And a wond'rous life it is.
How could you ever think it's anything but this?
Now He gave to you a mind,

So that you could make the call;
It's no coincidence that you can think at all.

SECONDARY: You can jump to conclusions,
You can even theorize.
You can say you'll believe it
When you've seen it with your eyes.
 But you'll open up your mind
When you've opened up your heart.
There's so much evidence,
I don't know where to start...

VERSE 5: If you didn't have a brain,
You might stumble like a scarecrow, tripping over your defeat.
Folks might avoid you like the birds that came to eat.
So just be glad He's true.

VERSE 6: If you didn't have a heart,
You might never feel the joys of being happy or in love.
Just give your thanks to The One Who watches from above,
Who has a heart like you.

REFRAIN: Evolution.....Coincidence.....
Are there for skeptics who can't see the evidence.

CHORUS: It's the miracle of life,
And a wond'rous life it is.
How could you ever think it's anything but this?
 Now He gave to you a mind,
So that you could make the call;
It's no coincidence that you can think at all.

"Coincidence" - words and music © 2003 by Jeffrey Robert Smith

For since the creation of the world God's invisible
qualities—his eternal power and divine nature—have
been clearly seen, being understood from what has been
made, so that men are without excuse. Romans 1:20 (NIV)
